

# September 2020 Meeting

We had a great informal and socially distanced meeting on Saturday, September 26 at the San Diego Air and Space Museum Annex.

We had lots of great models brought for show and tell. The theme was “what subject do you have the most kits of?” Scott Pence had the most with well over 30 kits of Sherman tanks.

One more note – this website won the IPMS USA Website of the Year for 2020!
